MASTERTEMP®

HIGH PERFORMANCE HEATER

Save money and energy with Australia's favourite pool heater. The MasterTemp® High Performance Heater has earned a reputation for being dependable, easy-to-use and efficient. And now with the addition of smart connectivity and energy-saving automation, you can ensure your pool is ready whenever you are.

FAST, EFFICIENT, COMPACT, QUIET, SAFE & ECO-FRIENDLY:

- › Very compact design for such a high performance heater, allows for smaller overall equipment pads that won't intrude on your poolscape.
- › A fully pre-mixed system with a highly efficient air and gas mixture lets the MasterTemp® heater heat up fast. No long waits before enjoying your pool or spa.
- › Cupronickel Heat Exchanger. Heavy duty corrosion-resistant heat exchanger for salt water pools.
- › Compare energy efficiency ratings and you'll find MasterTemp® heaters at the top of the list. Comfort and economy can go together.
- › With a hot surface ignition (no pilot light) and pushbutton, digital controls, the MasterTemp® heater is as easy to operate as your home heating system. Plus, user-friendly indicator lights make system operation and monitoring a snap.
- › The easy-to-view, rotating digital display places controls front and center, no matter how the MasterTemp® heater is positioned on your equipment pad.
- › MasterTemp® heaters are engineered for super-quiet operation and won't intrude on your poolside leisure time.
- › A tough, rustproof composite exterior handles the heat and weathers the elements.
- › Eco-friendly, the MasterTemp® heater is certified for low NO_x emissions and outperforms industry standards.
- › Safe operation through a series of features, including: a water pressure switch that senses the pump is running to prevent overheating, high limit switches assure the heater turns off if water temperature exceeds factory-set limits, manual gas shut-off when service is required, stack flue sensor also guards against overheating.
- › Approved for installation on combustible surfaces.

MASTERTEMP® 125

Don't be left out in the cold with heaters that don't measure up to today's longer list of must-have features. Insist on MasterTemp® heaters and you're insisting on better performance and lifetime value.

MASTERTEMP®

Rotating digital display means more installation options and easier access to view operating information

Easy to install or retrofit in even the tightest space – models from 125MJ to 400MJ – all measure 21"L x 21"W x 28"H

Rustproof, tough composite exterior for long life

Available in natural gas and propane (LPG) models

SPA SIZING*

Model	Minutes for 15°C Temperature Rise						
	Spa Volume (Litres)						
	500	1000	2000	3000	4000	5000	10000
125	18	37	73	110			
200	11	23	46	69	91	114	
300	8	15	30	46	61	76	
400	6	11	23	34	46	57	114

Note: The chart is based on a theoretical calculation discounting losses and only based on heat required to raise temperature in minutes.

POOL SIZING*

Pool Size	Recommended Heater Size By Location and Pool Size						
	Location						
	Adelaide	Brisbane	Canberra	Hobart	Melbourne	Perth	Sydney
25000	125	125	200	200	200	125	125
50000	300	200	300	400	300	200	300
75000	400	300	400	400	400	300	400
100000	400	400	400	400	400	400	400

Selection is based on average pool depth of 1.2m, in-ground pool, normal wind exposure, no cover use, light pool colour, no-shade, water temperature of 28C, Spring-Autumn use and 8 hours of daily running time. Consult with your pool equipment supplier for correct heater selection for your pool.

AN ECO SELECT® BRAND PRODUCT

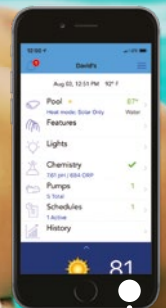

As the global leader in pool and spa equipment manufacturing, we strive to provide greener choices for our customers. We hope you'll join us in embracing more eco-friendly poolscape by choosing **Eco Select** brand products for your swimming pool.

STAY CONNECTED FROM ANYWHERE
